

**PSA Project** has successfully analysed, planned, secured and achieved multiple projects in the IT, Telco, Design and Construction arena. They are the Project Managers of the \$430 million MCG Redevelopment in Melbourne and, at the same time, have invested strongly in online web project management processes to bring their successful PMBOK aligned methodology to everyday use for all project management and end-users.

PSA's Managing Director, Paul Steinfort, has accreditation as a Project Mgt Professional (PMP®) and is immediate past President and a Fellow of the AIPM (Australian Institute of Project Mgt) Victorian Chapter, with 30 years of Project Mgt experience on over \$3 Billion worth of successful project outcomes in a diverse range of industries.

Paul's skills of perception, towards both people and situations, together with his ability to plan and project reliable outcomes, have proven to be key attributes to the Project Management process. His lateral thinking and capacity for developing innovative products has enabled his business to maintain its position at the forefront of the Project Management industry since its establishment in 1985.
